B.3

Provide a description of the PHA's progress in meeting its Mission and Goals described in the PHA 5-Year and Annual Plan.

- > Diversify and increase funding to expand capacity to provide services and housing outcomes:
- 1.4 Track funding priorities to respond to funding opportunities that further our goals Identify various funding opportunities: Staff identified a funding source through the creation of a revolving Ioan fund with the establishment of the Owner-Occupied Housing Rehabilitation/Reconstruction program. Deferred, and zero to 2 % interest Ioans will be provided to eligible homeowners. Funds repaid will be used to serve additional households needed home repairs.

Staff applied for the Housing Related Hazards Capital Fund Program for a grant in the amount of \$384,812.20 for Hoffer Apartments. Unfortunately, we were not one of the agencies selected for the grant.

- Increase the number of individuals/families that become self sufficient
- 2.4 Apply for additional funding to create more personnel to assist with case management SRHA applied for and was awarded an additional \$52,368 in funding for a second full-time Family Self-Sufficiency Coordinator position.
- 2.5 Create a Financial Management Plan with each participant (i.e. budgeting, home ownership, etc.)
 The Housing Counselor has assisted participants with establishing a budget to work towards homeownership, those that own homes were assisted with debt consolidation and mortgage foreclosure prevention.
 - > Expand redevelopment activities and lead efforts to develop a continuum of housing options.

The White Marsh Point at Eagle Landing project consists of the renovation of 113 units and the demolition and reconstruction of 93 units with a community room. The renovations at Eagle Landing are well underway and 8 buildings, consisting of 57 units have been renovated and reoccupied. The construction of 93 units at White Marsh Pointe is progressing well although we have continual obstacles presenting themselves due to the COVID pandemic (lack of works, lack of material, material delays, etc.).

The total cost of the project, structured as a Low Interest Tax Credit Community (LIHTC), is estimated at \$46.3 million, financed by a mixture of tax credits, a loan from \$RHA, a \$275,000 contribution from the City of Suffolk, and grants from the Federal Home Loan Bank of Atlanta totaling \$1,000,000. HUD endorsed the FHA-insured mortgage on the project of \$23.1 million.

3.1 Increase capacity to meet demand for affordable rehabs.

The Owner-Occupied Housing Rehabilitation/Reconstruction program was developed to assist existing homeowners with needed repairs that are above and beyond the Emergency Home Repair Program scope. The program will provide deferred loans and low interest loans to homeowners so that necessary repairs for their health, safety, and welfare.

3.4 Identify and engage stakeholders for development

In February 2022 the agency has done an RFP to create and expand the supply of affordable housing. The objective is to award project-based vouchers through a competitive application process to developers, developing communities in our jurisdiction. The agency plans to pursue partnerships with developers or entities to further the goal of creating additional affordable housing opportunities. Expanding the availability of decent, safe, and sanitary affordable housing by providing project-based vouchers to developers.

In 2020 the agency obligated some of its housing choice vouchers through the RFP process to developers in accordance with 24 CFR 983.6 (d) to project base vouchers to provide alternate affordable housing opportunities for families in the City of Suffolk. The agency continues to work with developers to ensure environmental review and subsidy layering reviews are conducted to prevent excessive public assistance from other local, state, and federal housing agencies.

	3.5 Identify affordable housing location/projects and assist in reinforcing compliance

Attachment 2

Deconcentration of Poverty and Income-Mixing [24 CFR 903.1 and 903.2]

The PHA's admission policy must be designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects. A statement of the PHA's deconcentration policies must be in included in its annual plan [24 CFR 903.7(b)].

The PHA's deconcentration policy must comply with its obligation to meet the income targeting requirement [24 CFR 903.2(c)(5)].

Developments subject to the deconcentration requirement are referred to as 'covered developments' and include general occupancy (family) public housing developments. The following developments are not subject to deconcentration and income mixing requirements: developments operated by a PHA with fewer than 100 public housing units; mixed population or developments designated specifically for elderly or disabled families; developments operated by a PHA with only one general occupancy development; developments approved for demolition or for conversion to tenant-based public housing; and developments approved for a mixed-finance plan using HOPE VI or public housing funds [24 CFR 903.2(b)].

Steps for Implementation [24 CFR 903.2(c)(1)]

To implement the statutory requirement to deconcentrate poverty and provide for income mixing in covered developments, the PHA must comply with the following steps:

Step 1. The PHA must determine the average income of all families residing in all the PHA's covered developments. The PHA may use the median income, instead of average income, provided that the PHA includes a written explanation in its annual plan justifying the use of median income.

PHA Policy

The PHA will determine the average income of all families in all covered developments on an annual basis.

Step 2. The PHA must determine the average income (or median income, if median income was used in Step 1) of all families residing in each covered development. In determining average income for each development, the PHA has the option of adjusting its income analysis for unit size in accordance with procedures prescribed by HUD.

PHA Policy

The PHA will determine the average income of all families residing in each covered development (not adjusting for unit size) on an annual basis.

- Step 3. The PHA must then determine whether each of its covered developments falls above, within, or below the established income range (EIR), which is from 85% to 115% of the average family income determined in Step 1. However, the upper limit must never be less than the income at which a family would be defined as an extremely low-income family (federal poverty level or 30 percent of median income, whichever number is higher).
- Step 4. The PHA with covered developments having average incomes outside the EIR must then determine whether or not these developments are consistent with its local goals and annual plan.
- Step 5. Where the income profile for a covered development is not explained or justified in the annual plan submission, the PHA must include in its admission policy its specific policy to provide for deconcentration of poverty and income mixing.

Depending on local circumstances the PHA's deconcentration policy may include, but is not limited to the following:

- Providing incentives to encourage families to accept units in developments where their income level is needed, including rent incentives, affirmative marketing plans, or added amenities
- Targeting investment and capital improvements toward developments with an average income below the EIR to encourage families with incomes above the EIR to accept units in those developments
- Establishing a preference for admission of working families in developments below the EIR
- Skipping a family on the waiting list to reach another family in an effort to further the goals of deconcentration

• Providing other strategies permitted by statute and determined by the PHA in consultation with the residents and the community through the annual plan process to be responsive to local needs and PHA strategic objectives

A family has the sole discretion whether to accept an offer of a unit made under the PHA's deconcentration policy. The PHA must not take any adverse action toward any eligible family for choosing not to accept an offer of a unit under the PHA's deconcentration policy [24 CFR 903.2(c)(4)].

If, at annual review, the average incomes at all general occupancy developments are within the EIR, the PHA will be considered to be in compliance with the deconcentration requirement and no further action is required.

PHA Policy

For developments outside the EIR the PHA will take the following actions to provide for deconcentration of poverty and income mixing:

The PHA does not have developments outside of the EIR.
